Operating Rules
Revised on September 24, 2010

I. Responsibilities

The Citizen Advisory Committee (CAC) of the Center for the Inland Bays (CIB) shall be responsible for providing objective watershed stakeholder concerns, advice and guidance to the Board of Directors of the CIB (Board) on matters of developing public understanding, interest, and participation in the implementation of the Comprehensive Conservation and Management Plan for the Delaware's Inland Bays (CCMP). Additionally, the CAC shall advise the Board on issues relating to public education about the Inland Bays and the Watershed and the application of the CCMP.

II. Roles

The CAC shall work under the authority of the Board and is subject to the bylaws of the CIB. The CAC serves as the watershed stakeholders’ advisor to the Board on all matters of concern to the citizens and users of the land and water of the Inland Bays and Watershed. The CAC shall carefully consider all issues of Citizen concern brought to its attention. Such issues will be reviewed and compared to the CCMP. If found comparable to an item in the CCMP a resolution shall be formulated, with consensus of the membership, and taken to the Board at the next scheduled Board meeting. If an issue is found not to be in the CCMP a resolution, with consensus of the membership, will be taken to the Board for consideration for action in relation to one or more of the CCMP Action Plans. If the issue is one that requires or is believed to require scientific review and or study, it will be formally sent to the Scientific and Technical Committee (STAC) of the CIB. All issues will be considered bases for further education of watershed stakeholders.

III. CAC Membership
