You’ve seen our front yard... now check out our backyard!

Ready for a day off the beach?
Explore the shady trails and quiet waters of the Inland Bays.

Three shallow bays—Rehoboth Bay, Indian River Bay and Little Assawoman—lie behind a narrow spit of land in sight and sound of the Atlantic Ocean on the Delaware coast.

The Delaware Center for the Inland Bays is a nonprofit dedicated to the wise use and enhancement of these bays. With its many partners and volunteers, the CIB sponsors and supports public outreach and education, restoration, and research.

Get on board with the Bays at inlandbays.org

A good place to start is at the James Farm Ecological Preserve on Cedar Neck in Ocean View...150 acres of maritime forest, meadows, salt marsh and sandy beach on Indian River Bay near Bethany Beach.
You’re invited to walk the trails, go beachcombing, and take in the views from the observation platforms from sunrise to sunset every day.

Directions: From Rt. 1, turn on Fred Hudson Road (first traffic light south of the Indian River Inlet Bridge) then right on Cedar Neck Road and continue to James Farm on left.

James Farm

Burton Island Trail

The loop trail begins at the north end of the marina where you cross a short bridge to the island. The sandy path leads through upland forests of oak, sassafras, holly and loblolly pine; a wide variety of native trees, shrubs and wildflowers. You’ll see grand vistas across the salt marsh to Indian River Bay and Rehoboth Bay as you traverse the marshes on elevated boardwalks.

Note: Please stay on the trail while visiting the island. The island provides important nesting grounds for the Diamondback terrapin.

Mode: Walking
Distance: 1.5 miles (round trip)
Difficulty: Easy
Trailhead: Delaware Seashore State Park / North end of the Indian River Marina
Directions: From Rt. 1, turn on Inlet Road just north of Indian River Inlet Bridge and continue to the Marina.
Map: destateparks.com

Printed on recycled paper with 30% post-consumer waste.

With thanks to Don Long, Environmental Planner, DE Department of Natural Resources and Environmental Control, for providing trail notes.
Holts Landing: Sea Hawk Trail

Mode: Walking  
Distance: 1.5 mile loop  
Difficulty: Easy  
Trailhead: Main parking area  
Directions: From Rt. 26 turn onto Holts Landing Road and follow to Park entrance.  
Map: destateparks.com

The Sea Hawk Trail meanders through mixed hardwood and conifer forest, crosses a meadow, then follows the shoreline of the Indian River Bay. Birding and other wildlife viewing opportunities abound as you experience the coastal bays environment along the trail. Fee $ in season

Savages Ditch Area

Mode: Kayak or canoe  
Distance: Variable  
Difficulty: Moderate  
Trailhead: Parking area  
Directions: Rt. 1 just south of Indian River Lifesaving Station  
Map: destateparks.com

This launch spot is on the east side of the Bay in an area dotted with islands of coastal salt marsh. Meandering among the islands, look for horseshoe crabs swimming along the bay bottom, snowy egrets moving quietly through the shallows, and osprey returning to their nests with fish. These islands are favored nesting areas for many native birds. Close to the beach but a world away. Fee $ in season

Paddlers Note: Launching and landing at Savages Ditch is best at a higher tide. Consult a tide table for Indian River and add 90 minutes for the Savages Ditch Area.

Millsboro Pond

Mode: Kayak or canoe  
Distance: Round trip 3-4 miles  
Difficulty: Moderate  
Trailhead: Millsboro Pond boat launch off Rt. 24 on Rt. 30

Millsboro Pond is located above the dam on Indian River and offers a peaceful freshwater paddle through floating gardens of Spatterdock water lily. Launch from the boat ramp and head northwest on the pond. Paddle near the pond’s edge to look for Green herons, Belted kingfishers, and Eastern painted turtles and explore around the upland islands. Follow to the east and north toward the top of the pond to reach the mouth of Cow Bridge Branch. The branch offers an intimate paddle on a narrow, shaded creek. The current may be strong in the spring and early summer as you paddle upstream.

Sassafras Landing

Mode: Kayak or canoe  
Distance: Variable (1-7 mi)  
Difficulty: Easy to moderate  
Trailhead: Sassafras Landing / Assawoman Wildlife Area  
Directions: Follow the signs from Camp Barnes Road  
Map: destateparks.com

From the Assawoman Wildlife Area, you can see the high rises of North Ocean City across the Bay, but this wild place is home to Bald eagles, Great blue herons and other denizens of the maritime forest and salt marshes. Launch from the sandy beach at Sassafras Landing and paddle west to explore Miller Creek. For a longer adventure, head east into Little Assawoman Bay and then north to the Assawoman Canal, a narrow shaded corridor that goes all the way to Indian River Bay.
