The 2016 State of the Inland Bays *Marianne Walch, CIB*

Release of the final 2016 State of the Inland Bays report.

Inland Bays water quality status and trends *Andrew McGowan, CIB*

Discussion of the status and trend analyses completed for the State of the Bays report, and interpretation of results.

Actions to reduce nutrient pollution: discussion of
Pollution Control Strategy implementation *Emily Seldomridge, CIB*

The Pollution Control Strategy is designed to reduce nutrient loading from current and future land uses. Implementation of the combination of elements is intended to lead to the achievement of TMDLs. Progress towards implementation of the Strategy is mixed. Emily will lead a discussion of her findings.

~~Delaware coastal resiliency and adaptation *Ram Mohan, Anchor QEA*~~

~~Input from the CIB STAC is sought as the NAS Marine Board tries to prioritize national focus on the topics of coastal resiliency and national dredging policy. This brainstorming session will focus on Delaware's coastal resiliency and adaptation needs.~~

New Business *Scott Andres*
