

Get Out for the Bays!

Sharing Your Fundraising Page

1. Go to your fundraising page.
2. Click **Share** in the top menu bar.
3. Choose how you'd like to share your page:
 - Copy and paste your page URL into an email or text message.
 - Click one of the social media icons to share across your feeds.
 - Send automated email invites through Givebutter. Hint: this option makes your life super easy! [Read the Givebutter guide to learn more.](#)

Tips for Sharing:

- Start with your closest friends and family. Their support early on will build momentum and make others more likely to give!
- Whether composing an email or posting to social media, be yourself! If something feels forced or inauthentic, scrap it.
- Provide regular updates. Let people know how your fundraiser is going by sharing your progress and any inspiring anecdotes you have about your chosen activity or the Inland Bays.
- Don't be afraid to follow up! Not everyone will give the first time you ask but that doesn't mean they don't want to support you. Remind them that a gift of any amount makes a difference.
